POETRY.

From the Dollar Times. A MOTHER'S PRAYERS.

BY JUNIUS.

Where shall my hope find rest? No mother's care
Shielded my infant innocence with prayer.

SAVAGE. Bastard.

Grief may wrap the heart in twilight,
Vice diffuse its shadow there;
Yet when glooms the deepest midnight,
Thought recalls a mother's prayer.
Come that memory sweet and holy,
Like a spirit from the grave,
Rob'd in whiteness, weeping slowly
For the soul it seeks to save.

Mother's prayers arise as incense,
Girt with love and anxious care,—
Range themselves in Mercy's presence,
And entreat her hand to spare.
Float they upward to the star-beams;
Angels watch to guide them on.—
Circling them with crowns of hope-gleams
Till their mission blest is done.

Who forgets while life's shade lingers,
When a child on bended knees,
Mother's prayers—time's brightest fingers—
Ere—

Rose like music on the breeze?
Lov'd and loving, close beside her,
Nestled we with guileless air;
Speaking oft of life another,
She besought we'd meet her there.

When we promis'd smil'd she faintly,
Clasping us in mock embrace,
While we felt her lips move gently,
And her tear-drops on our face,
Sacred moment! none forget thee,
Though the grass waves o'er her tomb.
To redeem the promise strive we?
Walk our feet mid Virtue's bloom?

Mother's prayers have birth undying,
Linking spirit to the Unseen;
On ourselves and them relying,
Faith contracts the link between.
Wretched be their power unknown!
Sin against him holds vantage-ground;
Judge we not the tares he's sowing?
Prayers, none breathed, are vain.

When Temptation's arm enfolds us,
And the Syren sweetest sings,
Ment'ry of her prayer to aid us,
Flecks the mind with spotless wings,
Then again dawns Virtue brightly—
Broken are the Tempter's snares—
Treasure ever—deem not lightly,
What were once a mother's prayers.

CINCINNATI, O., Sept. 12th, 1853.

THE PRESS.

BY J. E. CANNES.

The patient stars their vigils keep
On Heaven's azure field;
Life's busy din has sunk to sleep,
And Revel's eyes are sealed;
The type's low measured click, distinct
And clear,
Alone disturbs the midnight's slumbers
ear!

Soon shall the tireless Press send out
Its voice sublime and strong,
And to the waking morning shout,
Its old rejoicing song:
Shall boasting error blush to hear the
sound,
And skulking Crime shrink back with
awe profound?

Oh, potent engine, dost thou wield
Thy Briarion arms
The home of Purity to shield
From sin's alluring charms?
Art thou the friendless orphan's friend
and star,
The valiant Great Heart of the widow's
way?

Where is thy mighty fulcrum?—where?
Beneath the suffering poor?
Or on the backs of Work and Care
Who patiently endure
The twinging pangs of want—the law's
delay?
The dews of Night and colder sneers of
day?

Dost thou uplift the trodden down,
And plead the cause of Right?
And where the mists of error frown
Flingest thou dispelling light?
Or art thou but an empty sounding name:
A thing to scorn—a brazen trumpet
of shame?

Let Folly doubt thee—Wisdom's hopes
Are fondly on thee hung;
Without thee Justice lamely gropes,
And thou art Labor's tongue;
Yes, from the market-place by laggards
trod,
Thou hast been called—a laborer for
God!

In other days, ere England's soil
Had drunk the Stuart's gore,
And ere the iron son of toil
Trod Windsor's kingly floor—
The epic bard proclaimed his hope in
thee
As honor's guard, and bulwark of the
free.

Such wert thou here amid the night
Of that historic hour,
When freedom struggled with the might
Of avarice and power,
Then was thy scorn the lightnings vivid
flash.
Its thunder voice—the battle's clanging
crash.

And such thou art wherever Mind
The life of life supplies;
Thy hands the slavish serf unbind,
Wrong flees thy Argus eyes;
Thrones, privileges cast off before thee fall,
And Poverty throws off Oppression's
thrall.

Like a caught eagle dost thou pine
On many a darken'd shore;
God loose those two broad wings of thine
That Truth and Right may soar
Afir above the hoary dust of years,
Long sadly watered with despairing
tears!

THE SILVER SPRING.

The following is an extract of a private letter dated—

OCALA, (FLA.) Sept. 1853.

"In Marion county, East Florida, there is a very extraordinary spring called by the people, and not inappropriately, 'the Silver Spring.' It is not one of the great curiosities in nature, but as a source of profound sublime and pleasing impressions, has probably no equal. It is approached, through what is called 'a hammock,' which I may here best describe. The hammock, so termed in Florida, is a thick, dense forest in which the branches and vines are so matted and interwoven, that you are able to see only a few patches in any direction. The trees usually found in them, are the ash, Bay, Gum, Wahoo, Palmetto, Magnolia, Live oak and White Oaks. Over the trunks and limbs of these trees creep and twine thousands of vines, among which I may enumerate the Sarsaparilla, the grape and Jessamine weaving a kind of sylvan and floral fabric, through which a passage is almost impracticable. Through such a wood a road has been opened, about half a mile in length, by which and without any perceptible descent you reach the spring. At first appearance it seems almost a circle, and is about seventy yards in diameter. When first I stood upon its banks, and took the first glance into the deep, blue, calm, gem-like thing before me, I felt as though I were looking into the bright eye of some great angel, and in truth, it is not unlike the noble, fearful eye, which imagination might give to a powerful benevolent Divinity. I found a small boat, unbarbed which I paddled to the centre. I do not exaggerate the transparency of the water, when I call it as clear as the sunny air.

The depth of the spring is variously estimated, from one to two hundred feet at one place. I do not fear to hazard the statement, that the depth cannot be less than one hundred, yet such is the transparency of the water, that you can see a pin upon the bottom. I endeavored to ascertain accurately its depth, and threw an ounce ball into the water, for that purpose, but a large fish swallowed it before it reached the bottom, when I thwarted my purpose; he did not gain pleasure for himself, as he seemed not to enjoy his laden breakfast. On the bottom is a marvellous deposit, which has a considerable reflective power. When the sun shines, the spring is filled with rainbow colors and makes one of the most bewitching and fairy like scenes which natural combinations can produce or create. I observed the month of a large fissure or cave in the rocks below. From this chasm this limpid river seems vomited forth. This fissure or cave is between two layers of rocks that run from the north in horizontal lines; the strata seems abruptly to have terminated at the point where this river bursts forth; or if they originally extended beyond this point, in some convulsion, the portion lying South must have broken down. I do not attempt accurately to give the dimensions of this sub-aqueous cave, but these are my estimates: The vertical distance is 25 feet; its width is 8 feet; from this cave the water rushes up with great rapidity. I observed several large fish attempt to enter it, and they succeeded only after vigorous exertions; small pebbles too, were thrown upon some distance, yet such is the depth of the water above the cave, that the surface has scarcely a perceptible motion.

Nearly a week has elapsed since my excursion to this curiosity, yet the impressive Panorama is frequently before my mind—and in my dreams I again grow giddy as my frail bark seems to hand over a deep chasm, where rainbows intertwine, writhe, and break into thousands of pieces."

FRIENDLY LEAF AT THE FALLS OF NIAGARA. We have received a singular narration of a narrow escape of life at the Falls of Niagara. Mr. E. V. Wilson, of this city, went to the Falls with a party among the number was Mrs. N. L. Piper. The lady at the time was laboring slightly under a species of insanity immediately upon her arrival, she was very desirous to see the Falls and, while standing on the Canadian side, about twenty feet from the falling sheet of water, she slipped her arm from Mr. Wilson and made a rush towards the precipices. He rushed after her, and just as she was going over, he caught hold of her dress, and by it held her dangling in the air. The dress gave way and she fell upon a ledge of rock, at a distance of twenty feet. As she thus lay, Wilson, our narrative says, "with great presence of mind looks for a soft place," and discovering that a quantity of loose earth was lying on the rocks he immediately jumped down on it. He was just in time to save her from going over the main precipice. By the aid of a pair of long lines, belonging to a team close by, they were both drawn up together. Both suffered from confusion but neither was hurt. These circumstances took place on Thursday last. [Toronto Colonist.]

WONDERFUL PARTURITION!—The Mississippi Times, (Holly Springs), of the 1st of September, comes to us with the following announcement:—
Seven Children at One Birth!—Mississippi against the World!—The most astonishing parturition recorded in the annals of the human race was effected, occurred last week in the vicinity of Salem, Tippah county, in this State. Our informant is from a gentleman of veracity, who states that a lady of that neighborhood has just become the mother of seven children at one birth!

A Gem from Flavel.—Christ did much work for God in a very silent manner: he labored diligently but did not spoil his work, when he had wrought it by ostentation. When he had expressed his charity by acts of mercy and bounty to men, he would humbly seal up the glory of it with this charge, "See ye tell no man." Matt. vii. 4. He affected no popular air. Oh, imitate your pattern: work hard for God, and let no pride blow upon it when you have done. It is difficult for a man to do much, and not value himself too much for it.

The House of God.—The glory of a sacred edifice lies not in its vaulted roof and lofty spires and pealing organ, but in the glory that fills the house—the Divine presence; not in its fabric of goodly stones, but in its living stones, polished by the hand of the Spirit; not in its profusion of gold but in the gifts and graces of the Spirit; not in painted windows, but in its Gospel light; not in its choir of singing women, but in the music of some well tuned hearts, not in its sacred priesthood but in the great High Priest. If every stone were a diamond, and every beam of cedar, every window a crystal and every door a pearl; if the roof were studded with sapphires and the floor tessellated with all manner of precious stones; and yet if Christ and the Spirit be not there, and if the sacrifice of the Passover be not there, the building must have a glory beyond that of Solomon's cunning workmen give it, even the Lord God, who is "the glory thereof."—Remond of Rev. William Jackson.

NOVEL BALLOON ASCENT.—A boy named Joseph Gates aged 16 made a remarkable balloon ascension from Oakland, opposite San Francisco, on the 25th. The balloon was of the largest size, but not sufficiently inflated and would not rise with the aeronaut. The car was then taken off and a small board lashed across the hoop. Upon this the aeronaut took his seat, but he was too heavy for the crowd then called for a boy and, Gates, who was near peddling fruit, gave his basket to his partner and jumped on the board; without any provisions or clothing more than his ordinary suit, he rose before the aeronaut could give him any instructions, more than to pull the rope when he wished to come down. The boy sat upon the hoop (which was only an inch square) and leaned back upon the cords. When up about half a mile, he pulled the cord and it broke. The balloon flew rapidly to the northeast, at a height of about two and a half miles. The boy retained his presence of mind, took out his knife opened it, put it in his teeth and tried to climb the cords only a quarter of an inch in thickness and he could not climb them. The gas finally escaped so that the balloon descended about 15 miles from Renecia, in Suisun Valley, and 50 miles in a direct line from the starting point.

WINDFALL FOR A CLERGYMAN.—The Rev. Mr. Clawson of the Methodist Protestant Church, says the Uniontown (Pa) Democrat; who in many places is called the wild man, in consequence of his eccentricities, is left heir to an estate in England valued at one million of dollars! Mr. C. was very poor and has had to struggle thus far with a large and dependent family. The state comes to him by his wife, and the business is completely settled up, that he can draw the amount through bankers either at New York or Philadelphia. He is traveling through a circuit near Clarksburg in Western Virginia.

PLEASE STOP MY PAPER.—I am going to stop my paper, said a miserly subscriber of a newspaper to one of his neighbors. "I cannot afford to take it." How much does it cost you a year? "Two dollars and a half was the asked the neighbor."

And can't you afford two dollars and a half a year? Think of it only two dollars and a half a year?

A year is a long time. Perhaps you have only a few such to spend on earth. A year, a whole year! and only two dollars and a half a year! And what do you get for your money? A large closely printed useful sheet giving you the news of the week, and a large amount of miscellaneous reading, philosophical, and you can't afford two dollars and a half for such a paper a whole year."

Well I declare neighbor you talk like an experienced man. I never thought of it in just that light before, it is only two dollars and a half for a year and yet the paper comes to me every week and I love to read it; I always find something in it that is interesting to me. And moreover on second thought, perceive from all a good newspaper is about the cheapest thing a man can have. He gets more reading for his money than he can get any other way.

True neighbor and this shows that what I have already said, is true, designed almost exclusively for the poor to take a newspaper because it is the cheapest thing he can have."

SINGULAR DELIVERANCE.—Eleven survivors of the crew of a British ship, cast away upon Van Dieman's Land, lived for twenty three days without discovering inhabitants. At this time a dog appeared among them to the collar which they attached account of their situation. The dog happened to be long to a party exploring the country, who immediately proceeded to their assistance and they reached Hobart Town in safety.

VERY PRETTY INCIDENT.—We heard a very pretty incident the other day which, we cannot help relating. A young lady from the South it seems, was wooed and won by a youthful physician living in California. When the engagement was made, the doctor was rich, having been very successful at San Francisco. It had not existed six months, however when, by an unfortunate investment, he lost his entire heap. This event came upon him, it should be added, just as he was making ready to claim his wife. What does he do? Why young, feeble, and chivalrous, down writes the lady "every particular of the unhappy turn which had taken place in his fortunes assuring her, that if the fact proved any change in her feelings towards him, she is released from every promise she had made him. And what does the dear good girl? Why, she takes a lump of pure gold, which her lover had sent her when in prosperity, as a keepsake, and having it manufactured into a ring, forward it to him the following Bible inscription engraved in distinct characters on the inside:

"Entreat me not to leave thee or to return from following after thee; for whether thou goest, will I go and whether thou lodgest, I will lodge; thy people will be my people and thy God my God; where thou diest I will die, and there I will be buried; thy Lord do so to me, and more also if ought but death part thee and me."

The lover idolized his sweetheart more than ever when he received this precious evidence of her devotion to him, both in storm and sunshine. We may add that fortune soon again smiled upon the young physician, and that he subsequently returned to the North to wed the sweet girl he loved and who loved him with an undying affection. Nay more, the happy bride and bridegroom passed through our city not long since on their way to the home of the latter in the golden State. Reader, this is all true. Young ladies who read the Bible as closely as the heroine of our incident seems to have done, are pretty sure to make good sweethearts and better wives.—Boston Paper.

EARLY DEATH.—Herder the exquisite German writer is thus quoted in the "Baltimore Protestant." Early in the morning a maiden went into a garden to gather her self a fine rose for a wreath. They stood there in beautiful clusters of closed and half closed buds, waiting odor from their cups which were full of the morning dew. "I will not pluck you yet," said the maiden, "the sun shall open you first, then you will bloom brighter, and give out stronger and a sweeter scent."

She came at mid-day, and saw the fairest roses fretted by the worm, wilted by the heat of the sun faded and withering. The maiden wept over her folly, and the next morning gathered her wreath early.

God calls his loveliest children out of this world before the heat of the sun withers them—before the worm touches them. The paradise of children is a high degree of glory, the most upright man cannot set foot in it, for his soul has already been spotted.

WINDFALL FOR A CLERGYMAN.—The Rev. Mr. Clawson of the Methodist Protestant Church, says the Uniontown (Pa) Democrat; who in many places is called the wild man, in consequence of his eccentricities, is left heir to an estate in England valued at one million of dollars! The attention of those who trade to Charleston and Augusta, is respectfully called to the advertisements of Messrs. G. W. Ferry and Joseph Walker, the former dealing in Hats, Caps, &c., and the latter in Paper, Stationery, &c.

GEORGIA ELECTIONS.—The returns received from upwards of fifty counties, renders it probable that Jenkins, Union Whig, is elected Governor of Georgia by a small majority. It is stated that Colquhoun, democrat, has been elected in the 2nd District.

LARGE PEA.—A pea was left at our office the other day raised on the farm of Maj. M. Allen of this county, which measured 20 inches in length. We do not know the name of this variety, but a note accompanying this pea, stated that the seed came from South Carolina, and that a number of them would mature this year.

FOREIGN NEWS.—We presume no apology to our readers is necessary, for the room occupied in this paper by foreign news, and extracts on the subject of the threatened European war, from the New York Herald, London Times and other papers. The conjectures and opinions of those papers, especially the London Times, which is the government organ of Great Britain, are well worthy of consideration. The fear expressed by the London Times, that the Emperor of Russia would gain over to his influence the Emperor of Austria, is a very significant sign; and later news says that in this he has succeeded.

This question of war between Russia and Turkey, and other powers that must necessarily be involved, is one of unquestionably greater magnitude than any other that now occupies the public mind of the civilized world. If our own country does not become actually engaged in hostilities, yet every interest, agricultural, commercial and manufacturing, must necessarily be deeply involved.

THE YELLOW FEVER.—The present has perhaps been the most fatal year ever known in the history of this pestilence, which has been termed the scourge of tropical America. While it has ab-

TELEGRAPHIC.

[FROM THE CHARLESTON PRESS.]
ARRIVAL OF THE AMERICA.

BALTIMORE, Sept. 30.—The America arrived at Halifax on Friday. Sales of the week thirty thousand bales. Fair Orleans six three quarters, Middling six, Fair Up-land six and a half, Middling five three quarters. Speculators took four thousand, and Exporters five thousand bales.

Trade in Manufacturing districts slightly declined. Havre sales of the week four thousand bales. It was reported that the Turks had attacked the Russians. Breadstuffs largely advanced.

ADDITIONAL PER AMERICA.

BALTIMORE, Oct. 1.—The Emperor of Russia has expressed his willingness to accept the Vienna note without the Sultan's modifications and to evacuate the Principalities. The war spirit is raging at Constantinople. The walls are placarded with calls on the faithful to attack the Russians. The Sultan has only postponed the declaration of war at the urgent solicitation of the four powers. The Turkish armaments continue on an immense scale. A detachment is daily sent to reinforce Omar Pacha. A reserve corps is forming at Adrianople. The Pacha of Egypt promises to raise 15,000 more men. His new levy is 80,000. Gortschakoff has issued an address to the Russian troops saying that Russia is called upon to annihilate paganism. Omar Pacha has sent Gortschakoff warning that if the gun boats come too near the batteries they would be sunk. The cholera is spreading in England.

Baltimore, October 2.—The America reached her wharf at Boston on Saturday evening. St. Petersburg letters, are silent about politics. Large bodies of troops are concentrating on the frontiers of Moldavia. Omar Pacha can concentrate 60,000 men at any point in a day. It is reported that the Turkish police have discovered a secret society among the Albanians who were supplying men against Turkey.

Nothing done yesterday in Cotton in New York.

BALTIMORE, Oct. 2, 7.50 p. m.—The Black warrior has arrived at New York with Havana dates to the 27th. The Lady Suffolk has arrived in Charleston, charged with a cargo of slaves for the slave trade. A cargo of slaves has been landed at Trinidad. A slight political disturbance has happened at Caradens. It is believed Parnell will soon supersede Canedo. Messrs. Diego at Havana have failed for a quarter of a million.

BALTIMORE, Sept. 30.—Advices from Bermuda state that up to the 25th the deaths at St. George from yellow fever were 200, one eighth of the entire population. The disease was clearing. A great gale occurred at Newfoundland on the 25th. Many vessels were lost. The American fishermen were very unsuccessful. The potato crop in Newfoundland was an entire failure. A famine is expected.

ADDITIONAL PER BALTIMORE.

BALTIMORE, Oct. 3.—The HAVRE COTTON MARKET was active, and the sales during the week ending on the 18th ult., comprised 9,000 bales.

EUROPEAN INTELLIGENCE.

It is reported that the cholera was extending its ravages in the English ports.

The latest advices from Constantinople were to the 7th ult., and they state that the Egyptian troops had been sent to Varna and Shumla.

Advices from Paris to the 20th ult., state that Austria had declared that she could no longer act with the other Powers, and that instructions had been sent to Baron Buren to assure the Sultan that he must accept the first note without any modification.

The Vienna Conference was at the last advices still in session, endeavoring to smooth matters, but it considered matters as being very serious.

The Hungarian Regatta are to be lodged in the Museum at Vienna.

Letters from Madrid state that another political crisis is coming on in Spain, and that in private political circles the propriety of deposing the Queen is freely discussed.

It is reported that new modifications conciliatory both to Russia and Turkey would be made, but it is feared that in the meantime the armies on the Danube might come into collision.

The Servian Charge has notified the Porte that Servia will remain neutral in the event of a war.

By the overland mail we learn that the United States Expedition, comprising the *Susquehanna*, *Princeton*, *Plymouth* and *Saratoga*, sailed on the third of July, from Shanghai for Japan, followed by two Russian frigates. The *Susquehanna* and *Saratoga* had touched at several Islands, and distributed live stock. At the Island of

Bomar, where they found European settlers, they purchased ten acres of land, and a fine harbor for a coal depot.

The Chinese revolution extends, but no decisive action is yet reported.

The King of Prussia has concluded not to go to the meeting of the Emperors of Russia and Austria at Olmutz.

The Paris papers state that the French Government entertains confident hopes that the Turkish difficulties will be settled without an appeal to arms. The *Patrie* adds that the Emperor of Russia will (not?) under any circumstances commence hostilities.

WASHINGTON INTELLIGENCE.

BALTIMORE, Oct. 3.

Advices have been received by the President at Washington, stating that serious difficulties had occurred between the American and Mexican troops in the Mesilla Valley. It is understood that the Mexican Government intended to demand explanations from Gen. Gadsden in reference to the Americans sending troops into the Valley. Advices have been received at the Navy Department, that Commodore Rixs's exploring squadron were at Cape de Verde, on the 27th July—all well.

THE CHEVALIER HULSEMANN AND SECRETARY MARCY.

BALTIMORE, October 4.

The Chevalier Hulsemann, Charge d'Affaires at Washington of His Majesty the Emperor of Austria, has arrived at Albany, and had a long interview with Secretary Marcy. It is believed that Koszta will be given up on condition of his returning to the United States.

DIFFICULTY BETWEEN AN AMERICAN CAPTAIN AND THE PERUVIAN AUTHORITIES.

BALTIMORE, Oct. 5.

A difficulty has occurred at Chincha, between the American ship *Delfino*, and the Peruvian authorities. The Captain of the *Delfino* was forcibly taken from his vessel, and chained by the feet on board the Peruvian Guard ship. It was reported that he was dying from the ill treatment he had received.

GREAT FIRE IN BUFFALO.

A great fire has occurred in Buffalo which has consumed one hundred houses, involving a loss of \$1,000,000.

From the Cincinnati Weekly Times.

RUSSIA AND TURKEY.

A curious suggestion is put forth by the Editor of *Littell's Living Age*, in explanation of the unusual character of the Russian course in the affair of Turkey. The *Age* remarks that Russia's "insolent tone toward France and England; the paltry pretences put forth by the usually sagacious and dignified diplomatists of the nation; considering, also, the long suffering moderation of the British Ministry, who will not say a word in explanation; considering, especially, that the subject of the evacuation of the provinces must not be mentioned to the Emperor, lest it should irritate him; we venture to suggest, as an explanation which will satisfy all conditions of the enigma, that Nicholas has displayed hereditary jealousy, and that this has, by the Russian Ministers, been communicated to England, France and Turkey. Perhaps we shall soon hear of the military part of the Russian constitution. Somebody has said that Russia was a despotism, tempered by assassination."

Insanity is a hereditary infirmity of the Imperial family of Russia; and it is a hereditary, well attested fact, that the reigns of a majority of the monarchs of Russia have been ended by violent means. That such secret information has been transmitted to the Courts, is not an unreasonable supposition; and yet, if this be the fact, we would not be surprised if it were only a part of that deceptive policy which has marked the intrigues and proceeded the military movements of Russia.

When the reason comes for the alleged fact to evacuate its position at the Black Sea, thus retreating from its hostile attitude, without seeming to do so by arrangement, Nicholas can then turn the faces of his legions northward, without any show of compulsion, and thus remove the threatening clouds which have so long overhung Europe. But, will the Emperor of Russia do this? We do not believe he will; we believe he will seduce England and France, and if they refuse to prove favorable, will attempt to take Constantinople by a *coup de main*, and secure the Emperors of the Danube. This would be an achievement worthy of so gigantic a power; a triumph unparalleled, and would oppose an insurmountable barrier to any future action of France and England in that direction. The fate of Turkey would be forever sealed, the power of the maritime powers forever paralyzed as regards Russia and Turkey; and Nicholas, holding the fate of Europe in his hands, would defy the world. With one foot on the Baltic and over-shadowing Denmark; and the other upon the Mediterranean; with Turkey at his feet, a few years would give him a steam marine that would be invincible.

It is the conservative feeling of France and England; the fear of a general democratic convulsion throughout the continent that has caused such great reluctance to commence a war, which would have roused the republican element. The first cannon shot would unquestionably have been the signal for a general rising of Italy and Hungary, and the spectacle of a dissolution of armies by wholesale desertion is not at all improbable. On present action seems

to hang the fate of empires, and to the present only, does State policy look for safety.

Suppose, however, that our speculation as to the plan of Russia should be correct, and that she should conquer Turkey in Europe by a *coup de main*, and completely check-mate the allies—what then? She would ultimately embroil herself with Europe, and the safety of the Western nations could only be secured at last, by their awakening, and identifying themselves with the scarce slumbering democratic energies. Then would come the battle between popular and despotic authority. Europe, divided in two belligerent sections—the object of the contest, liberty or slavery—would present such an antagonism of principles as the world has never beheld, but is truly typified by the American Revolution. England, always, comparatively a free country, has been tending peacefully for centuries toward a republican platform. The power of genius, and the force of wealth, have carried the commoner into the ranks of the aristocracy, which has been compelled thus to renew its flagging energies and its decaying fortunes. It is this graceful yielding of arbitrary restrictions to the laws of nature and of common sense, that has preserved her ancient organization so long. Her statesmen have by turns as the balance seemed to waver thrown her sword into the scale of despotism or democracy. She is in that transition period which fears both; and that the most which seems to be the strongest for the moment. Taken in connection with the political current of the age, England's safety will naturally determine her course, which must be republican. The Protectorate of Cromwell and the Revolution of 1688, indicated the direction of substitution of modern English character. France, no less than England, has received an irresistible impulse republicanward. She has buried forever the *ancien regime*. That era of her history, commencing with Charlemagne, the rising sun of modern civilization, which dispensed the darkness of the Medieval ages, has closed; and a no less brilliant hero has inaugurated the Democratic period. Clothed with the insignia of Imperial power, surrounded by such paladins as founded the present aristocratic families of ancient Europe, now fast decaying, the advent of a democratic epoch has been proclaimed, and its basis well established.

The seeds sown by the French Revolution possess an enduring vitality, and prove as difficult to eradicate as the veneration for those customs and traditions which have been sacrificed by time, and overthrown with the life of the nation. One seems to be as forcible as the other; but if there is any truth in the idea and doctrine of progress, there cannot be a doubt as to which will be eventually the conqueror. The time has come for the advent of Europe, from the *ancien regime*, to the *nouveau monde*, to the modern republic, to the modern civilization. We do not believe that the wheel of time can be stopped, or be made to retrograde, as regards the rise, progress, education and decline of civilization, and we must admit this, if we grant the triumph of Russia on a grand scale, as regards Western Europe. The evacuation of the Danubian principalities, only in our opinion, will be taken as satisfactory evidence to all concerned, that the Eastern question is settled; and that this has been determined upon by Russia, is, apparently, as far off as it ever was. The change of rulers in the empire has always been a critical period, full of hazard, and if the surmises of the age be true, the peace of Europe may be still to be won and the whole continent be wrapped in the flames of civil war.

FROM THE N. Y. H. P. H. THE TURKISH QUESTION.

The Paris correspondent of the London Times writing on the 12th inst., says: "My private letters from Constantinople of the 28th ult., It was expected that the Turkish journals of Constantinople would on the following day, the 30th publish another manifesto to the nation from the government, explaining the state of the country and also its position with reference to the Foreign Powers. That document was awaited with much impatience and anxiety. Arguing the first interpreter of the Russian Embassy, had several interviews with the Turkish Minister, but the situation of affairs had not changed. The Egyptian troops were expected to set out soon for Shumla, but were to be reviewed previously by the Sultan. The Turkish government has entered into a contract for the supply of 300,000 muskets lined with leather to the troops and this was thought indicative of a further complication of the questions with Russia and consequently the probability of hostilities."

The Gazette de Frankfurt has advices from the Lower Danube of the 30th ult. Omar Pasha is in an embarrassing position. Soldiers insist on fighting the Russians. He cannot overcome this resolution and there is reason to fear that the fanaticism of the troops will interfere with the negotiations.

The corps of General Leders, which hitherto had been stationary in Bessabia crossed the Russian frontier in Moldavia on the 22nd of August. One day one regiment marched in, two more followed on the 24th, and other troops are to follow soon.

The *Crustadt Zeitung* has advices of the 24th August from the Lower Danube. On the 28th one and on the 30th two Russian regiments arrived at Braila. After informing us that the Turkish army is mad for war, the correspondent says: "If it should come to blows the campaign could not last long. The Russian move slowly but en-

ly and even those who are hostile to them do not doubt that their advances to Constantinople would be a little parade march." The Satellit learns that the reserve troops under Pacha begin to grow restive. These men, who have all served before insist on being led against the Russians. The Turkish commander is unwilling to damp the ardor of his troops, but on the other hand he fears the enthusiasm may degenerate into licentiousness, if they are kept long in suspense.

The Vienna correspondent of the same journal writing upon the 19th inst., says: Should Russia refuse to accept the modified note, it will be a heavy blow for the Vienna financiers, who one and all consider the Oriental question settled. It is expected that the decision of the Russian Cabinet will be known here to-morrow; but it is not unlikely that we may be kept in suspense a day or two longer. The *Triest Zeitung* has two or three letters of the 29th ult from Constantinople but they contain no news of any great importance. The general impression in the Turkish capital is, that the Oriental question is likely to occupy public attention for some time to come as the modified note must as far as the Porte is concerned, be considered an ultimatum. The warlike preparations of the Turks are carried on with unabated vigor both in Europe and in Asia. The troops work literally day and night at the fortifications on the right bank of the Danube, and a cavalry cordon has been formed from Widdien to Shumla, and from Shumla to Varna, so that any news of importance can be transmitted in twenty hours from one extremity of the Turkish line of defence to the other.

THE REJECTION OF THE MODIFIED VIENNA NOTE BY RUSSIA—THE POLICY OF AUSTRIA IN THE CRISIS.—The electric telegraph has brought us, by way of Berlin, the news for which all Europe was impatiently waiting. The Emperor of Russia has rejected the Turkish modifications of the note which he accepted at the suggestions of the four Powers. An answer in this sense had been despatched from St. Petersburg to Vienna on the 17th inst. but we were told nothing of that answer, whether the rejection was "simple and direct," or whether reasons for the rejection were stated which would necessarily lead to further negotiation. Wool Carding.
THE subscriber would
respectfully inform the
public, that he has just
put in operation a SPIN-
NING NEW WOOL CARDING
MACHINE, four miles north
west of Jacksonville, where he
would be pleased to accommodate
all persons who have wool to card
on the usual terms.
The wool should be well wash-
ed and cleaned of all burrs or other
hard substances, and no grease
of any description put on until
brought to the machine, as I have
plenty of oil for that purpose.
I solicit a trial of my machine.

SPLENDID PLANTATION
FOR SALE.
I will sell my plantation
near Livingstone and at Spring-
ville, and extending from
12 to 15 miles West of Asheville
St. Clair County Ala. containing
1580 Acres 450 in a high state of
cultivation, with two good im-
proved settlements, good dwell-
ing houses and out houses.
The tract may be divided into sev-
eral settlements if desired, the tract
abundant in good and never
failing springs, the lands are gen-
erally red or chocolate color and
produce Cotton, Corn, Wheat,
(etc.) equal to any in this
latitude.
The stock, Corn and Fodder will
be sold with the plantation if de-
sired—I will sell all or a part of
these lands. For terms apply to
Hon. Geo. I. Thomson at Asheville
or to the subscriber on the pre-
mises.

THE STATE OF ALABAMA,
BENTON COUNTY.
Court of Probate for Benton County,
Ala. Special Term Oct. 1, A. D. 1853.
THIS day came William Bar-
ker, Guardian of Mary J. Mc-
Kinney, formerly Mary J. Walker,
now the wife of Wm. McKinney,
George W. Walker, Wm. E.
Walker, and Narcissa Walker,
children and heirs at law of Thom-
as J. Walker, late of said county
deceased, and filed his petition in
writing, setting forth that he is the
Guardian of said minors, that they
own four fifths of an undivided in-
terest in the following described
Lands to-wit:
North east qr. of north east qr.
section 24, township 16, range 11;
also south east qr. of south east
qr. section 13, township 16, and range
11; and south west qr. of south
east qr. section 13, township 16, of
range 11; and south east qr. of
south west qr. of section 13, town-
ship 16, range 11; and south west
qr. of south west qr. section 13,
township 16, range 11; and south
east qr. of south east qr. Sec. 14,
township 16 and range 11 east in
Coosa Land District of said county,
and prayed an order of sale of
said lands, setting forth that it
would be more to the interest of
his said wards to sell said lands
and loan out the proceeds of the
sale of the same, than it would be
to rent out said lands. It is there-
fore ordered by the Court, that
Monday the 14th day of Novem-
ber next, be set for the hearing of
said petition, and that notice there-
of be given by publication in the
Jacksonville Republican a news-
paper printed and published in the
town of Jacksonville, for forty
days prior to said day as a notice
to such of said wards as are non
residents, and to all others con-
cerned to be and appear at a regular
term of said court to be holden at
the court house of said county, on
said Monday the 14th day of No-
vember next, and defend against
said petition if they think proper.

THE STATE OF ALABAMA,
BENTON COUNTY.
Court of Probate for Benton County,
Ala. Special Term Oct. 1, A.D. 1853.
This day came L. E. Roberts,
Administratrix of the Estate of
Henry S. L. Roberts, and filed her
accounts and vouchers for a final
settlement of said estate.
It is therefore ordered by the
Court that Monday the 14th day
of November next be set for audit-
ing and stating said account, al-
lowing said vouchers and making
said settlement, and that notice
thereof be given by publication in
the Jacksonville Republican—a
newspaper printed and published in
the town of Jacksonville—in
said county, for three successive
weeks prior to said day as a notice
to all persons concerned to be and
appear at a regular term of said
court, to be holden at the Court
House of said County, on said
Monday the 14th day of Novem-

H. G. FARRELL'S
Arabian Liniment.
is a most extraordinary medicine, the
truth of which is placed beyond doubt
by the vast sales of the article, and the
many cures being daily performed by it,
which previously had resisted all other
medicines; and the skill of the best
physicians in the world. It is composed
of balsams, extracts, and gums, pecu-
liar to Arabia—possessing in a concen-
trated form, all their stimulating, mo-
roretic, and anodyne properties, and
the same which, some years ago, were
used by the Sons of the Desert, in
curing the diseases of both man and
beast.
Read the following remarkable cures,
which should of itself place
it beyond any similar remedy.
H. G. FARRELL'S ARABIAN LINI-
MENT
far beyond any similar remedy.
Mr. H. G. Farrell—Dear Sir: Acti-
vated by a sense of gratefulness, I sub-
mit the following as an instance of the
utility of your great medicine. My
child, three years old, was suddenly at-
tacked with a terrible disease, which, in
less than six hours prostrated it to total
helplessness. The limbs became so rigid
that not a joint could be bent; the
flush turned black and cold and en-
tirely deprived of feeling; the eyes
fixed, partially closed and altogether
blind, following this was deafness to
all sounds; the spine became contract-
ed and so curved that when lying on its
back the head and heels only touched;
indeed, the child presented every ap-
pearance of being dead. Immediate-
ly on the attack the family physician
was called in, and for three weeks he la-
bored to restore it to feeling, but all in-
vain, although it was blistered a dozen
times and various rubefacient Liniments
applied. A consultation of physicians
was then held, but to no purpose, the
case was then brought before the Medi-
cal Society, but nothing could be sug-
gested which had not already been done,
and the doctor then told me that he
could do nothing more. We then com-
menced applying your Liniment freely
over the entire length of the spine, and
you may imagine a parent's joy, when,
after a few applications, returning im-
mation was apparent, and it rapidly re-
covered with the exception of the sight,
which did not become perfect for near
a month. The child is now healthy and
robust as can be. Five other cases of
the same kind occurred previously in
my neighborhood, all of which died,
when there is no doubt if your Linim-
ent had been used they would have
recovered. **HENRY G. CLELAND,**
Peoria, March 1st, 1851.
Look out for Counterfeits!
The public are cautioned against an-
other counterfeit, which has lately made
its appearance, called W. B. Farrell's
Arabian Liniment, the most dangerous
of all the counterfeits, because his having
the name of Farrell, many will buy it as
good faith, without the knowledge that a
counterfeit exists, and they will perhaps
suffer. The genuine article is manufac-
tured only by H. G. Farrell, sole inventor and
proprietor, and wholesale druggist No.
17 Main street, Peoria, Illinois, to whom
all applications for Agencies must be
addressed. Be sure you get it with the
letters H. G. before Farrell's thus—H.
G. FARRELL'S—and his signature on
the wrapper, all others are counterfeits.

LOOK AT THIS.

THE undersigned takes this method of informing the citizens of Jacksonville and surrounding country, that he is now prepared to put in operation for the public his new and improved patent water Elevator for raising water from wells. He flatters himself that there is no method now in use for raising water from wells, that can equal this for cheapness, durability, simplicity of construction, and for keeping water pure.

Price for putting them up as for all wells 40 feet and over, deep, 75 cents per foot. All wells under 40 feet will be charged \$30; the subscriber furnishing all the machinery and materials and putting them in full operation. Persons wishing a good pump are requested to call at the residence of Mr. E. L. Woodward in Jacksonville, where they can have an opportunity of examining one of my Elevators in full operation. Any person wishing one of my Elevators can be supplied at short notice, by addressing a note to me at Oxford, Benton Co. Ala. where I am engaged in manufacturing them.

ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR DYSPEPSIA!

DR. HOUGHTON'S

PEPSIN

DIGESTIVE FLUID.

OR GASTRIC JUICE.

PREPARED from RENNET, or the fourth Stomach of the Ox, after direction of Baron Liebig, the great Physiological Chemist by J. S. Houghton, M. D. Philadelphia, Pa.

"DIGEST" Such is the true meaning of the word Pepsin. It is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID, precisely like natural Gastric Juice in its Chemical powers, and furnishing a COMPLETE and PERFECT SUBSTITUTE for it.

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL, ACIDS, or NAUSEOUS DRUGS. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG.

Half a teaspoonful of Pepsin infused in water, will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the stomach.

SCIENTIFIC EVIDENCE! The Scientific Evidence upon which this remedy is based is the highest degree CURIOUS and REMARKABLE.

Call on the Agents, and get a Descriptive Circular, gratis, giving a large amount of SCIENTIFIC EVIDENCE, from Liebig's Animal Chemistry, Combs's Physiology of Digestion; Dr. Pereira on Food and Diet; Dr. John W. Draper, of New York University; Prof. Duglielmo's Physiology; Prof. Sillman, of Yale College; Dr. Carpenter's Physiology, &c., together with reports of CURES from all parts of the United States.

Pepsin in Fluid and Powder.

Dr. HOUGHTON'S PEPsin is prepared in Powder and in Fluid Form—and in Prescription vials for the use of Physicians. The Powder will be sent by Mail, free of Postage, for one Dollar sent to Dr. Houghton, Philadelphia.

OBSEVATIONS.—Every bottle of the genuine PEPsin bears TON, M. D. sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

Sold by all Druggists and Dealers in Medicines. Price ONE DOLLAR per bottle.

\$500 CHALLENGE

HOBBENACK'S WORM SYRUP.

An article founded upon Scientific Principles, compounded with purely Vegetable substances being perfectly safe when taken, and has never been known to fail in curing any most obstinate case. Worms can never exist when this remedy is once used, from the fact that it not only destroys them but removes all the slime and mucus which they require to remain.

The Tape Worm.

This worm is the most difficult one to destroy of all that inhabit the human body. It grows to an almost indefinite length, and becoming so coiled and fastened in the intestines and stomach as to produce Fila. St. Vitus Dance, &c., which is the cause of many going to the grave, not believing that these complaints have their origin from the Tape Worm; consequently they do not use the proper medicines for their disease. To those who are afflicted with this awful foe to health, I recommend the use of my Worm Syrup, and Liver Pills; the Syrup to be taken in doses of two table spoonfuls three times a day, after meals, and after using it for a week, to dislodge and purge the system. By strictly following these directions, the most obstinate cases of Tape worm can be speedily cured.

Round or Stomach Worm.

This worm is usually found in the small intestine, and is the most common to children. It is not entirely confined to them, as adults have frequently been known to suffer with them. The symptoms most prominent while affected with this worm, are hardness and fullness of the belly, along with sickness, nausea, and picking at the nose, a bluish streak under the eyes, &c. If you, or any of your children have any of the above symptoms, HOBBENACK'S WORM SYRUP can safely be depended upon by using it you have a certain, safe, and speedy cure; and if after using it according to the directions the patient is not restored to health, and the worms thoroughly eradicated from the system, you can rest assured there is no remedy beyond the grave, as for fail, there is no such word as fail with those who use my Worm Syrup.

Ascariæ, or Small Thread Worms.

These worms, in which the human system is liable, are the most troublesome of all others. They are generally to be found in the rectum, and if allowed to remain, from the irritation they produce, lay the foundation for serious disorders, such as inflammation of the bowels, and other dangerous affections of the stomach. The most powerful power of my medicine over these parasites, that I do any one to produce a cure
